We are excited to announce the next Service Rifle Clinic. This year we will be implementing a new teaching format. There will be a brief classroom session in the GRRC Red Shed. We will then proceed to the 200 yard line for the practical portion of the clinic. The Clinic will be held on Saturday, May 15th, 2010 with a 7:30 am roll call. The clinic should be completed around 4:00pm.

The purpose of the clinic is to teach the fundamentals of High Power Service Rifle Marksmanship. We will cover many topics, including sight alignment, trigger control, breathing, and equipment. The clinic will show the participant how to compete in a High Power Rifle Match; yet will be held in a relaxed and low-pressure environment. After the Clinic, the participant will have enough information to compete in High Power Rifle matches held all across the country, including the famous National Matches held at Camp Perry, Ohio. Please bring a pen and notebook to the Clinic because we will be covering a lot of information!

During the entire clinic, there will be an experienced rifleman on each firing point to coach, assist and share their expertise. These experienced riflemen will also be the safety officers. We want this experience to be safe and enjoyable.

Highpower Rifle competition is a rigorous and demanding activity. This sport requires an excellent amount of physical flexibility to acquire the necessary positions. These positions will be extremely awkward at first and may be downright uncomfortable. Please be advised and judge your own physical condition prior to participating in this clinic. Further questions can be directed to the e-mail address listed above. Please notify your coach of any physical limitations you may have. Remember, your efforts will soon be rewarded by hitting the X-ring over and over again!

To reserve your place in this clinic, please fill out and send in the attached application with payment to the address listed above. The clinic is limited to 60 participants so please send in your application as soon as possible. Entry in clinic includes entry to a CMP EIC Leg Match on Sunday, May 16th.

YOU DO NOT NEED TO OWN A RIFLE OR ANY EQUIPMENT TO PARTICIPATE IN THIS CLINIC! We will have all necessary equipment available for you to use. We also have M1, M1A/M14 and AR15 rifles available. If using one of the club rifles, you must purchase ammunition for the borrowed rifle from the club. Ammunition is only \$30 for sixty (60) rounds in all calibers. You can also purchase ammunition to use at the clinic for your own rifle for the same price. You will use the same rifle for all stages of the match. The rules of the range require that an Empty Chamber Indicator (ECI) be in the rifle at all times except when on the firing line. If you don't have one, you can purchase one from GRRC for \$1. This is a very cheap investment for a lot of safety!

Please contact me at kubeborlaug@msn.com with any questions. We look forward to seeing you!
