Minnesota Rifle and Revolver Association - Since 1932

300 Meter Junior High Power

Minneapolis Rifle Club is hosting a Junior 300M 4P International High Power program. This program is made available with the sponsorships of the MRRRA, CMP, NRA and USA Shooting.

The Minneapolis Rifle Club (MRC) 300 Meter facility is a fully enclosed climate controlled shooting house with electronically scored targets and monitoring. Rifle and ammunition and shooting gear for the program will be made available if needed. Juniors are welcome to bring their own rifles for this program if the rifle and ammunition are approved.

Juniors will be required to complete initial safety training or show that they have completed approved safety training from another program. All shooters are required to use eye and ear protection. We encourage you to bring your own eye and ear protection. It is required that the parent or legal guardian accompany the Junior for initial registration. It is also strongly encouraged that the Juniors have prior competitive style shooting experience.

Coaching will be provided by club members that have NRA coach training. Juniors will work through the progression of the 4 positions of Prone, Sitting, Kneeling and Standing. They will be qualified in each position before progressing to the next position. An NRA structured Qualification program will be used for this and Juniors will be awarded for each step.

MRC is located at 8310 Hill n Dale Dr, St. Francis, MN, 55330. Club information and directions can be found at the following web sites. www.mgfc-mrc.org and www.mrra.org. The cost for this program will be a one time \$15.00 Annual Junior membership to the club. The provided ammunition is at a cost of \$5.00/50 rounds. The Dates for this program will be held on Sundays through the Winter on the following dates. January 13 & 27 2008, February 10 & 24 2007, March 09 & 23 2007 at 1:00 PM.

Further information and pre registration can be made through the following contact juniors@mrra.org
