Erhard Bruderer shot his personal best this evening with a 571. Congratulations Erhard. Arne Olsen matched his last week's personal best. Congratulations Arne. Jim Hagen joined the group and started with a very strong 560. Welcome Jim. Robert Smith is still very strong. When Mark comes back next week, and possibly Robert Young and Lance Peters get into the mix to really heat things up, it will really get interesting. Where are you Lance Peters?

Discussion at match seemed favorable to incorporating this league into the USA Shooting league system so the scores achieved here can be incorporated into each shooters National Ranking. The cost was \$6.50 per shooter for the incorporation. It is limited to twelve matches so Mike M will inquire and possibly start such in January. This assumes that USA Shooting will again make the National Rankings available to shooters on their website.
