Highlight of the Evening.

Mark Vangsgard scored his personal best this evening.

Congratulations Mark.

Robert Smith had several shots break with spontaneous trigger action this evening, a first for him and not yet achieved by most. He was so pleased by that, after having noticed it that he lost his concentration and next shot was a seven. RW, you have reached a new plateau, congratulations.

Mark Peabody keeps getting stronger and stronger each week. He shot another personal best this evening. Each times he shoots lately, he has been bettering his previous personal best. Congratulations Mark. Your progress is very impressive.

Cathy Hagen returns to air pistol competition after not having touched a gun for almost two years. On her first time back on the line, she almost breaks 500. Look out all, and welcome back into the fold Cathy.

Bob Young was absent last week, hunting deer in northern Minnesota instead. He bagged two does. Well done Robert.

Steve Studt came with plans for a five target rapid fire system for possible use here. Interesting.
