

**Minnesota Mid-Range Regional Championship**  
**Harris MN Oct. 1 & 2, 2016**

Well if you could have picked any better weather for a two day match, you'll have a hard time selling it to me! For a fall weekend in October you all know it can go really good or really bad. This past weekend was fantastic with blue skies and 70 degrees F temp's.

Saturday morning started out a little foggy so we had to delay the start of the match for a half hour or so but no one was going anywhere. The first day course of fire was a 4- gun Any/Iron format. When we finally got started, it was still a little foggy but that just made it a little more challenging,,, for some. In the first match of the day their where 5 cleans shot, with Eric (birthday boy) Rhode leading the way with a 200-13x in the lead and Jay Johnson close behind with the same score. By the time the second match was underway the fog was gone and bright skies made the targets just glow. Eric continued to lead the way with a 200-14x and this time Stacey was close behind with a 200-10x. There were the only 2 cleans shot in this match as the wind started to get a little sneaky. In match 3 there were also 2 cleans shot and you guessed it, Eric shot another great 200-14x with Bob Peasley shooting a great 200-10x. Then to close out the day with light switchy winds, 5 cleans were shot with Eric again taking the match with a 200-13x and I finally pulled one out with a 200-12x for second place. For those of you who a math challenged Eric fired a fantastic 800-54x for the day to take the lead. After day one the leader board read as follows

1. Eric Rhode
2. Stacey Tamulinas
3. Randy Gregory
4. Steve Knutson
5. Steve Clark

In the Master Class the leaders were;

1. Jeff Jezierski
2. Kevin Walker
3. Bruce Rawlings
- 4.

Larry Weidell led the way in Expert class

After the match a bunch of use went into town for a great meal and a few great stories were also told by all at the Pizza Pub in North Branch.

On day 2 the weather was perfect again with no need for a fog delay. For this day the course of fire was a 3-gun Any/Any format. With scopes mounted and at the ready it would make it a big uphill challenge to make up any ground lost on day one but we all came to do our best and have fun on the shooting range with great friends.

In match one there were only 3 cleans shot with myself pulling out a 200-17x and Eric close behind with a 200-14x. In match two the winds were getting a little more tricky but 5 cleans were shot with Stacey shooting a great 200-13x and Eric just behind with a 200-13x also. Now for the final match of the day and weekend everyone felt the pressure,,, almost all of us! Only 2 cleans were fired in the ever challenging switching winds with myself leading the way with a 200-15x and Phill Klanderud with a 200-7x

For the day two Any sight leader board it read as follows;

1. Steve Knutson
2. Eric Rhode

3. Steve Clark
4. Jay Johnson
5. Kevin Walker

In the Master Class the leaders were;

1. Kevin Walker
2. Jeff Jezierski
3. Bruce Rawlings

Larry Weidell again led the way again in Expert class

When all the smoke cleared the 2 day medal leader board read as following;

1. Eric Rhode
2. Steve Knutson
3. Steve Clark

High Master class winner was Jay Johnson

Master Class winner was Kevin Walker

Expert class winner was you guessed it, Larry Weidell

It was great to see everyone at the match and it was great to share drinks and great food with great friends!

Until next year, Start those new gun project early!

Thanks again to George and Steve for running such a great match again at Harris!  
Steve Knutson
